Acknowledgements

I would like to express my sincere gratitude to my mentors, Mr. Ken and my parents for the continuous support I have received during my journey in App Development and for their motivation, guidance and advices that helped me through.

About Me

- ***Introduction***

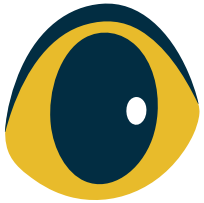
  Name: Kevin Johnson George
  Age: 19
  Education: Bachelor's Degree in Computer Science

- ***Interests***

  AI & Machine Learning helps in times of disasters, in the society and improves user experience. The possibility for AI to mature in our environments is high and will change the future as it makes human lives easier.

About My Internship Journey With Clevered

It's been an amazing journey in learning things I've been interested in.



Learning both front-end and back-end coding in this internship has been really educative and effective.

It's been an enjoyable experience and the live sessions were entertaining.

About App

Virtual Desktop Assistant

About Project

- Virtual Desktop Assistant - Eve
- Performs tasks/services
- Uses voice commands

Motive

- The project theme brought an interest to me
- Capable of multitasking and is more approachable for users
- Helps users to perform tasks efficiently

Benefits
